The NKWDA consists of eight (8) counties in Northern Kentucky: Boone, Campbell, Carroll, Gallatin, Grant, Kenton, Owen, and Pendleton.

The NKWIB does not act as the Direct Service provider, instead contracting for the delivery of those services in alignment with guidance from the Kentucky Education and Labor Cabinet. NKWIB partners may provide workshops and seminars. (e.g., soft skills/ essential performance skills training, computer literacy) that are aimed at actively engaging private industry in ways that support the placement efforts and other Direct Workforce Services provided by its contractor. Once the contract has been awarded, the NKWIB interacts administratively with the contractor, providing leadership, guidance, professional development, technical assistance, monitoring, and other activities to ensure that the contractor faithfully executes the strategies and policies of the NKWIB.

Please note: *The NKWIB has determined that in limited circumstances, bidders may propose*

V. Direct Workforce Services

Direct Workforce Services are workforce development services that help eligible clients prepare for, obtain, and succeed in self-sufficient employment and help area employers find, train, and hire needed workers. Eligible individual clients include Adults, Dislocated Workers, and Youth (both In-School Youth and Out-of-School Youth) who qualify for services under a variety of programs and funding streams administered by the NKWIB. Per WIOA Section 194(1) and state guidance 16-006, Priority of Service requires that services be provided to those who can benefit from "and who are most in need of such opportunities." with 50.1% of all participants must be from a priority of service category:

- Recipients of Public Assistance
- Other low-income individual
- Individuals who are basic skills deficient
- Veterans remain a priority

These funding sources may include the federal Workforce Innovation and Opportunity Act (WIOA); a variety of National Dislocated Worker Grants (NDWGs) from the US Department of Labor; grants from other US federal departments; grant partnerships with the Commonwealth of Kentucky; private foundations and/or trust grants; and additional public or private funds. By submitting a proposal, the applicant assures the NKWIB that the applicant will provide appropriate Direct Workforce Services in the NKWDA under any of the NKWIB's current or future funding sources if requested, and the applicant will work cooperatively and effectively with any entities that partners with the NKWIB on grants that serve the NKWDA. The award of this contract does not guarantee that additional funds will be awarded to this contract.

A. Direct Workforce Services include:

Note: Bidders should reference ***Appendix 2*** (organizational chart) for more details.

1. Talent Development/ Career Planning & Development --The NKWIB's suggested service

model for Northern Kentucky is anchored by the Talent Development/ Career Planning & Development Specialist (talent development specialists). The talent development specialists (TDSs) are employed by the contractor and, directly interact with clients, employers, educational institutions and other partners via face-to-face meetings, video conferencing, phone conversation, or other technology-assisted conversations.

Career-advisor-based services are a client-centered approach, the goal of which is to facilitate the client's preparation and strategic planning for his/her career using whatever workforce development services and activities are needed or requested by the NKWIB through the NKWIB leadership team. Talent development specialists provide case management and job and career counseling throughout the client's active engagement of services, including after the client obtains a job.

In addition to working with clients already enrolled in Direct Workforce Services, TDSs are also responsible for conducting outreach, promoting workforce services, and recruiting new clients within their communities. Talent development specialists must work closely with workforce partner agencies, educational institutions, other community organizations, and local governments to ensure that all potential clients are aware of the workforce services available.

The successful bidder will be required to provide career advising/case management services to clients who are co-enrolled in Trade Adjustment Assistance (TAA) and who are approved for training services. Clients who are eligible for services under the Trade Adjustment Act may be assessed as in need of training by KY Wagner-Peyser staff. If this occurs, they will be referred to staff performing contracted WIOA services in the Kentucky Career Center. Contracted WIOA staff will then co-enroll WIOA services and provide case management and career guidance. Knowledge of relevant Trade Adjustment Act processes and procedures will be required to perform this specialized case management duty.

As a part of their involvement with career opportunities and alternatives for their clients, TDSs must communicate with their local employer services representatives in collaboration with the NKWIB's Business Services Specialist and maintain an awareness of local and regional employers and their workforce needs.

A full breakdown of services can be found in the Adult/Dislocated Worker Policy and Procedures manual at <http://www.nkcareercenter.org/>

2. **Youth/Young Adult Talent Development/Career Planning & Development Services--**
While Youth/Young Adult Talent Development Specialist Services (Youth/Young Adult TDSs) are similar in some ways to Career Planning & Development/Talent Development. They also need skills specific to the younger target group specified under WIOA. Services to youth/young adults include working with both in-school and out-of-school youth with an emphasis on Opportunity Youth (youth 18 – 24 years old with no connection to education or the workforce). All youth/young adults services must be customer-focused based on the needs of the individuals.

Currently, NKWDA program requirements include the following and must continue to include:

- Outreach, Recruitment and Orientation,
- Intake, Eligibility Determination and Registration,

- Objective Assessment and Referral,
- Individual Service Strategy,
- Case Management,
- Access to a Range of Services (WIOA required 14 program elements),
- Follow-Up for 12 months.

The fourteen required WIOA program elements are to be made available to all youth who are served by the WIOA youth system. Made available" does not mean that every youth participant must receive services from all program elements; it means that youth/young adults have access to these services if they require them to meet their goals. These can be provided directly or through referral.

The fourteen required WIOA youth/young adult elements are:

- Tutoring, study skills training, instruction, and dropout prevention services,
- Alternative secondary school services or dropout recovery services,
- Paid and unpaid work experience,
- Occupational Skills Training
- Education offered concurrently with workforce preparation and training for a specific occupation,
- Leadership development opportunities,
- Supportive Services,
- Adult Mentoring,
- Follow-Up Services,
- Comprehensive Guidance and Counseling,
- Financial Literacy Education,
- Entrepreneurial Skills Training,
- Services that Provide Labor Market Information,
- Postsecondary Preparation and Transition Activities.

In addition, contracts must ensure the following program design components:

- Educational Services – including educational options that connect to career pathways,
- Career Pathways – a combination of rigorous and high-quality education, training, and other services,
- Work Readiness Training – including soft and hard skills,
- Funding Allocations - at least 75% of allocated funds must be spent on services for out-of-school youth.
- Work Experience Opportunities – 20% of youth funds must be spent on work experience. Paid and unpaid work experience must include academic and occupational education,
- Youth Development – opportunities that give youth a chance to grow and lead in their communities.
- Opportunity Youth – an emphasis should be placed on providing services to Opportunity Youth (youth 18 – 24 years old with no connection to education or the workforce).
- It is highly recommended that the applicant hire staff that focus solely on youth services since these services tend to be intensive and more comprehensive than the services offered to adults/dislocated workers.

Contractors should provide easily accessible locations for services and well as demonstrating local partnerships, such as local secondary schools, higher education institutions, law enforcement, juvenile and adult justice systems, local housing programs, community-based agencies, Health and Human Services agencies, vocational rehabilitation, businesses/employers, mental health services and other organizations that serve youth.

A full breakdown of services can be found in the Youth Policy and Procedures manual at <http://www.nkcareercenter.org/>

- 3. Employer Services** –The NKWIB's suggested business service model in Northern Kentucky is anchored by Business Service Representative/Business Services Navigator. The business service representative is employed by the contractor and works to provide business services and strategies to meet the workforce investment needs of area employers, as determined by the local board. The subcontracted Business Service Representatives will work in collaboration with the NKWIB Business Services Specialist to develop the available services and strategies.

The business service model is a collaboration with the NKWIB (through the Business Services Specialist), the contractor, community partners and educational institutions and focuses on identifying the needs of local employers. Employer Services are to be provided in line with the NKWIB'S wishes to focus on those industries that are key to the economic health of the NKWDA. Those industries or high-demand sectors currently are Advanced Manufacturing, Healthcare, Information Technology/Business/Finance, Logistics/Transportation, and Construction and Trades. It is important to note that the NKWIB will conduct future labor market analyses that may result in different industry sectors being identified. The successful bidder will then be required to realign its Employer Services efforts to the newly identified sectors.

The service model includes developing and implementing strategies to reach employers in the NKWIB's high-demand sectors, developing and delivering innovative workforce investment services and strategies for area employers and promoting all available business services to appropriate area employers, including small and mid-sized and urban and rural employers in collaboration with the NKWIB's Business Services Specialist.

As described in WIOA sec. 116(b)(2)(A)(i)(VI), the Department of Labor and the Department of Education jointly establish a primary indicator of performance for effectiveness in serving employers. There are three approaches to measuring effectiveness in serving employers (ESE).

- Approach 1 - Retention with the same employer - addresses the programs' efforts to provide employers with skilled workers.
- Approach 2 - Repeat Business Customers - addresses the programs' efforts to provide quality engagement and services to employers and sectors and establish productive relationships with employers and sectors over extended periods of time; and
- Approach 3 - Employer Penetration Rate - addresses the programs' efforts to provide quality engagement and services to all employers and sectors within a State and local economy.

After conducting a pilot program to measure performance under WIOA's six core programs, the Departments required states to select two of the three approaches to report data that the Departments will use to establish a permanent indicator. Kentucky chose Employer Penetration Rate and Repeat Business Customer, the NKWIB concurs and will measure only those chosen by KY for local performance measurement, other measures may be added at the NKWIB's discretion. Contractors will use these approaches to establish successful employer engagement. If indicators to measure business service performance change based on state or federal decision, then the successful bidder will also be required to realign performance with these measures.

In addition, with the Cincinnati/Northern Kentucky International Airport (CVG) being a significant regional economic engine as well as an integral part of the workforce system in the area the NKWIB requires a dedicated CVG Airport Business Services Representative (BSR). The BSR's responsibility would be to serve the passenger service and cargo service employers based at the CVG airport.

- 4. Rapid Response** – The successful bidder will also be required to provide Rapid Response Activity services to employers as defined under WIOA. The term "rapid response activity" means an activity provided in the case of a permanent closure or mass layoff at a plant, facility, or enterprise, or a natural or other disasters that result in mass job dislocation to assist dislocated workers in obtaining reemployment as soon as possible, with services including:
- The establishment of onsite contact with employers and employee representatives-
 - immediately after the Commonwealth is notified of a current or projected permanent closure or mass layoff, or
 - immediately after the Commonwealth is made aware of mass job dislocation because of a disaster.
 - The provision of information on and access to available employment and training activities.
 - Assistance in establishing a labor-management committee, voluntarily agreed to by labor and management, with the ability to devise and implement a strategy for assessing the employment and training needs of dislocated workers and obtaining services to meet such needs.
 - The provision of emergency assistance adapted to the closure, layoff, or disaster.
 - The provision of assistance to the local community in developing a coordinated response and in obtaining access to State economic development assistance.

VI. Firewalls

"Firewalls" must be described in the application to address conflicts of interest or the appearance of conflicts of interest. Examples of firewalls include but are not limited to organizational arrangements that provide a clear separation of duties and responsibilities, including confidentiality and disclosure agreements.

An entity that applies to be a Direct Service provider in the NKWIB service area must disclose in its application any potential conflicts of interest that could arise from its relationship(s) with organizations submitting applications for the NKWDA One-Stop Operator, training service providers or other service providers, including, but not limited to, other Direct Workforce Services providers.

Once the contract is awarded and in accordance with 20 CFR §679.430, the winning organization must develop a written agreement with the Local Workforce Development Board and Chief Elected Official(s) to clarify how the organization will carry out its responsibilities while demonstrating compliance with Workforce Innovation and Opportunity Act (WIOA) and corresponding regulations, relevant Office of Management and Budget (OMB) circulars, and the State's conflict of interest policy.

VII. Physical Facilities

Organizations submitting proposals are required to locate their services in the existing **Comprehensive** and **Affiliate** sites of the Kentucky Career Centers in the Northern Kentucky Workforce Development Area. Kentucky Career Center locations may change at the NKWIB's discretion. Bidders may also include **Access Points**, which offer some flexibility to maximize customer services and resource utilization.

The NKADD will hold the leases on all existing facilities beginning July 1, 2023.

Current Comprehensive and Affiliate career centers and Access Point include:

- A. *Comprehensive Career Center*** – A comprehensive Career Center is a workforce center that has been so designated by the Northern Kentucky Workforce Investment Board (NKWIB) after meeting criteria established by the Commonwealth of Kentucky and the NKWIB and completing the application and certification process. As of the date of this RFP, the following location is the Comprehensive Career Center in the NKWIB local area: Kentucky

Kentucky Career Center Covington, 1324 Madison Avenue, Covington, KY 41011

- B. *Affiliate Career Centers*** – An Affiliate Career Center can be any location where two or more of the WIOA core partner agencies (WIOA Title I, WIOA Title II- Adult Ed, WIOA Title III- Wagner-Peyser, WIOA Title IV- Vocational Rehabilitation, etc.), in the Kentucky Career Center (KCC) network to provide services and maintain a regular schedule during operating hours. Currently, the following location serves as the local Affiliate Career Center in the NKWIB area:

Kentucky Career Center Florence, 8020 Veterans Memorial Drive, Florence, KY 41042.

- C. *Access Points*** – Access Points can be a location where career center services are available to the public, with at least one KCC partner providing onsite support services. These access points include entities with higher customer volume, such as a local public library or an international airport. These access points may allow for greater exposure to customers while reducing the costs of office space and/or lease agreements. Bidders are required to outline their staff representation throughout the workforce area to ensure accessible, efficient, and high-quality services to the citizens/job seekers and employers of Northern KY.

Current Access Point career centers (physical sites) include the following locations:

1. Kentucky Career Center Carrollton at 1209 Highland Avenue, Suite S, Carrollton, KY 41008

A. Required Staff

The NKWIB offers the bidder the opportunity to develop a functional staffing plan to meet the specifications of this request. A complete plan should be included in the form of an organizational chart (**Appendix 2**). All staffing suggestions will be negotiated at the time of contract negotiations and will remain in effect for the duration of the contract unless both parties agree to written modifications.

Pending availability of federal funding granted to the Northern Kentucky Workforce Investment Board through the Workforce Innovation and Opportunity Act by the U. S. Department of Labor (USDOL) through the Kentucky Education and Labor Cabinet, Department of Workforce Investment, the following will be estimated as needed to provide the associated categories of service. The following numbers are provided as estimates/planning figures only and do not in any way guarantee funding; successful bidders must be responsive and adaptable to any changes in the funding allocations (as well as other/additional resources):

Direct Workforce Services	
Adult	\$XXX,XXX
Dislocated Worker	\$XXX,XXX

Space and Utility costs will be paid from the local allocation by the NKADD as the fiscal agent. Bidders need to budget for telephone, internet, and other operational costs.

Note: If the contract is extended for Year 2 and Year 3, the estimated/planning figure will remain the same as the estimated/planning figure for Year 1.

***Note:** due to WIOA funding categories, proposed services to employers/ businesses may be delivered utilizing the above resources. However, bidders are encouraged to show how they will leverage non-WIOA resources in their service delivery plans.*

20% Youth Work Experience Funds are added to the contract after negotiations using the formula provided by the Department of Labor. The intended purpose of these funds is wages, as well as a proportionate amount for staffing costs for the development and management of work experience.

B. Outcomes and Performance Requirements

The NKWIB's performance is measured against the goals, objectives, and standards attached to each funding stream that it administers. The overarching objectives of the NKWIB's programs are to prepare and place the region's workers in jobs that provide a self-sufficient wage and to build the region's economy by ensuring that the region's employers — whether existing or new — can hire qualified workers that help their businesses succeed. It is the intent of the NKWIB to train and encourage employment across all the high demand sectors. Key Performance Indicators (KPI) are collected system-wide (see **Appendix 3** for more details). The successful bidder will demonstrate an ability to meet set performance matrix.

1. The NKWIB may require additional or revised performance measurements based on their strategic plan or specific guidance. Bidders will be expected to adapt to these changes accordingly.
2. Similarly, the performance of successful responders to this RFP will be measured against the goals, objectives, and performance standards attached to each funding stream that supports client services and activities that they will deliver under the contract. The specific levels of performance deemed successful will be discussed and identified during the contract negotiations that precede the final contract awards.
3. The performance measures for the Adult and Dislocated Worker programs supported by Workforce Innovation and Opportunity Act (WIOA) funds can be found in Sections 116(2)(A)(i) and (iii) of the WIOA. The performance measures for the Youth programs supported by WIOA can be found in Sections 116(2)(A)(ii) and (iii) of the WIOA. The full text of the Workforce Innovation and Opportunity Act is available online.
4. The performance measures for Effectiveness in Serving Employers (ESE) are found in section 116(b)(2)(A)(i)(VI) of WIOA. The Commonwealth of Kentucky uses Employer Penetration Rate and Repeat Business Customer to measure ESE. The full text of the Workforce Innovation and Opportunity Act is available online, with additional information available in TEGL 10-16 Change 1.

As mandated by WIOA, the NKWIB negotiates its acceptable levels of performance. Contractors will be expected to meet or exceed these negotiated levels of performance.

Employment Connections

Assisted 38 individuals to increase their work readiness skills

Employment Connections serves two target groups, Transitional Assistance for Needy Families (TANF) and Supplemental Nutrition Assistance Program (SNAP) recipients. The TANF program has experienced reduced numbers in the past year due to the state lifting the mandated work/volunteer requirements due to COVID. The program goal is to assist those receiving public cash benefits in gaining the skills and experience to attain self-sufficient employment. Even with the reduced numbers, we assisted 38 individuals in increasing their work readiness skills. SNAP has the same goal, to assist individuals in achieving self-sufficiency. SNAP is a voluntary program where clients receiving nutritional assistance can take advantage of the many services offered through our Kentucky Career Center and unique SNAP Employment and Training (E&T) program to increase their work-ready skills. For both programs, we offer job search assistance and follow-up services to assist in attaining and maintaining employment. Through our SNAP program, we have served 146 people.

TANF and SNAP E&T services are funded by the Cabinet for Health and Family Services.
