Give broader latitude in State Policy to allow for aligning Career Pathways at local High Schools with local needs. Currently College and Career Readiness is tied to school accountability yet schools only get credit for work done in "Approved Career Pathways". Schools can apply for a pathway, but only get approval about ½ the time. This creates a barrier for schools trying to provide needed options. The State Department of Education is working on a new accountability system to be rolled out in September. This may be addressed at that time. Other partners such as the Northern Kentucky Education Council may be interested in this issue. (2)	Provide support for individuals who do not have the information or financial means to go through the expungement process. With particular focus on records that are causing challenges with securing housing and job opportunities. Adopt Kentucky Youth Advocates policy: Expand the list of offenses that youth can expunge and make the process automatic. Increase advocacy with employers so youth are given a second chance for employment, similar to Nehemiah Manufacturing in Cincinnati. Ohio also has a "Certification of Qualified Employment" process removing some barriers to employment. Partners include Children's Law Center and Legal Aid.
